## Women Moonshiners Will Be Penalized Same as Men, Judge Reppert Announces

Court Sends First One Arraigned Today to Jail for Six Months; Fine, \$250.

### GRAND JURY ENDS TASK

"We will sentence women just the same as men until we have some assurance that the practice of the manufacture of moonshine has been broken up," Judge E. H. Reppert declared today in pronouncing sentence on a woman maker of the illicit beverage. The court then ordered Mrs. Anna Kocel of Fairhope to pay a fine of \$250 and costs and spend six months in jail. It is the end of 30 days after her confinement to prison, the fine and costs are paid she will be released under parole for a period of a year. It was Mrs. Kocel's first appearance.

Daniel Grates of near Uniontown was assessed a fine of \$1,000 and costs and ordered to serve two years in the Allegheny County Workhouse, with the provision that if at the end of 18 months the fine and costs are paid, Grates will be released under two-year parole.

John Veleovich of Jefferson township also served badly when arraigned on a liquor violation charge. John had been before the judge in December, 1923, for a similar offense. He was fined \$1,000 and sentenced to 18 months in jail, eight of which he must serve. Then if the fine and costs are paid he will be paroled for two years.

Joe Huda of Arnold City was fined \$250 and given four months to jail, one of which he must serve.

In the case of J. M. Harrison of Uniontown, who was charged with running a gambling house, a verdict of not guilty was returned.

William Reynolds of Brownsville was found not guilty in a liquor selling case.

Announcement was made that the bail of Edward Moran of Uniontown, charged with the sale of narcotics, had been forfeited.

The grand jury completed its work during the forenoon and went to the county home for the purpose of inspecting it. Dinner was served by Steward and Mrs. T. Springer Todd.

### MORE CONFIDENCE IN IRON AND STEEL

PHILADELPHIA, June 7.—In a review of the iron and steel trade the Public Ledger declares that cheerfulness is becoming more apparent throughout the iron and steel industry. Factors who expressed fear of poor business for the summer months are showing more confidence. It has been no light in the last two months that a substantial improvement in business conditions would not come as a surprise.

More orders have been received in the last week, and production is holding up better than in the past. Output is said to be less than consumption. This naturally means that any increase in specifications in the near future would mean a strengthening in price.

Iron Trade Review says that general sluggishness about the iron and steel situation, but this is being modified by some signs of stimulated interest. A noticeable betterment has been apparent in inquiries this week and now understandings in structural steel. With recovery held, the gap between mill shipments and new business is narrowing. It is said that other buyers have little to place at present or are unwilling to commit themselves.

### Frank W. Bruner, B. & O. Telegrapher, Dies While at Work

Frank W. Bruner, a Baltimore & Ohio telegrapher for many years, died Thursday morning while working in the Messenger street office, Johnstown. Death was due to acute indigestion. Mr. Bruner was born at Hyndman in May, 1879, and served his apprenticeship on the Baltimore & Ohio at that place. He was located at Rockwood for a number of years, moving from that town eight years ago to Johnstown. His wife, who before her marriage was Miss Veda Malberry, was also a native of Hyndman.

The body was taken to Hyndman for burial on Sunday afternoon.

**LaPollette Referred to Inevitable.**  
WASHINGTON, June 7.—Having made his "record," "Fighting Bob" LaPollette of Wisconsin was reconciled to seeing Congress adjourn today with which his colorful favored inaction.

**Will Visit Delaney's Cave.**  
About two couples, including persons from Connellsville, Uniontown and Smithfield, are planning a trip to Delaney's Cave tomorrow, leaving here at 7:30 o'clock.

## Juniors Present Their Banner to Grads; No Fight

When Matthew Cokosky accepted the "key of knowledge" from Kell Loug of the graduating class of the Connellsville High School on Thursday evening during the class day exercises he promised the Class of '25 would do "big" things in the next year.

Last night, on the eve of their entrance into the rank of seniors, just after the members of the Class of '24 had received their diplomas, representatives of the '25 group took an early start towards the fulfillment of Cokosky's predictions.

Robert Garte and Van Marletta, speaking for the entire body, stepped onto the stage carrying a large card-board on which was inscribed "1925."

"The class of 1925 is neutral," Garte announced, and asked Robert Behanna, president of the graduating group to come forward. He handed the banner to the '25 president and by that act the class light, which has become a marring feature of commencement night was averted. Applause rang through the house as spectators, who had watched the scene in open-eyed wonder, grasped the meaning of the act.

Following the benediction junior boys were offered many congratulations on their gentlemanly stand. It was considered an act of far greater courage to set such a precedent than to continue the street battle for possession of the banner. Parents of students, as well as the school authorities, have always been opposed to the mix-up, but some uncontrollable persons always got the thing going regardless. By its act last night the Class of '25 wrote itself into lasting High School history. Nothing but favorable comment was heard anywhere today.

Outside the school building, however, quite a throng had gathered in anticipation of the scrap. This throng was increased when the more than a thousand persons making up the audience at the commencement exercises left the building.

Half a dozen policemen, some in plain clothes and armed with tear gas maces were on hand. An attack on Officer Bert Ritchie, alleged to have been made by Joe DePaul, resulted in his arrest. DePaul has no connection with the school in any way. He was held without bail and will be given a hearing this evening. He is charged with disorderly conduct and holding to riot.

Presence of the "rough element" in the crowd was noticeable, police said; there merely to get something started. It was an orderly crowd, however, outside of the incident following which DePaul was arrested. The students left the school and did not bother any of them going directly to the senior dance at the Armory.

Not to be outdone by the Class of '25 in bringing to a close the class fight, the graduates took the "1925" banner to the Armory, where the dance was being held and placed it above their own. The actions of the graduates in exchanging courtesies in this manner was commended in the highest terms by scores of citizens.

### Vanderbilt Men Reported Missing

VANDERBILT, June 7.—The disappearance of Joseph Strickler and Louis "Bud" Younkin is a mystery to the local populace. They were last seen Monday in a truck owned by the Famous Tailoring Company, of which company Strickler is a member. Strickler, who is 26 years of age, is a married man and his wife is nearing motherhood. Younkin is about 21 years of age.

The disappearance of the two young men places the total to four for this year alone. John Korintus, prominent business man, disappeared during the latter part of January, and several days afterwards, a foreigner named Garbel.

### Woman Is Named G. O. P. Chairman On Organization

By United Press.  
CLEVELAND, June 7.—For the first time in the history of either political party a woman is to head an important committee of a Republican National Convention.

Mrs. Elizabeth B. Martin, of Philadelphia, a delegate-at-large from Pennsylvania, is to be made chairman of the convention's committee on permanent organization.

On Work of Mayor.  
Mr. and Mrs. Clyde Newcomer and son, James, of Oliver have gone to Mayor to visit relatives over Sunday.

## CLASS OF 1924 STEPS FORTH FOR BATTLE OF LIFE

Hundred Seventy Boys and Girls Urged by Dr. Baker to Be of Good Courage.

### THEIR OUTLOOK BRIGHT

Valedictory Address Is Delivered by Paul Lambertson, First Honor Student; H. George May Thanks Students and Parents for Work Done.

"I congratulate you on the outlook that is yours in the world's work," was the words with which Dr. S. S. Baker, president of Washington & Jefferson College, concluded his commencement address to the 170 young men and women, composing the largest graduating class in the history of the Connellsville High School, Friday night. Dr. Baker said he wished them "God's care" as they go into that thing we call "experience."

Clad in their gray caps and gowns, the Class of 1924 assembled for the last time and at the conclusion of the program was presented with diplomas by Attorney H. George May, vice-president of the Board of Education.

"The auditorium was again packed to its capacity, nearly every seat being taken by ticket holders before the doors were thrown open to the general public at 8:15 o'clock.

Miss Evelyn Phillips, with "The School as a Social Center," was the first student to speak.

"The time has passed," she said, "when the school is intended merely for the children. It is now an important center in a community. It is the one thing that teaches into every home."

Miss Phillips declared a community center was a place for people to get together and enjoy real democracy.

Miss Margaret Selsom, winner of second honor in her class, spoke on "The Place of a Woman in a Modern World." She dwelt on the insignificance of woman in the early ages and of her advancement.

"Now," she said, "she is not only politically independent but holds social and economic positions as well. The woman is not yet very much in politics, but her influence is sure to fall in future generations. The woman must not be satisfied with her present condition."

Paul Lambertson, who took first honor, had as his subject "The Liberation of Truth."

"Truth remains intact," he said, "if the false ideas of men could be influenced truth we would have little of it left today."

He pointed out many of the mistakes of the early ages regarding things which have since been disproved by science.

"All truth is as old as God in creation," said the speaker. He said there were two kinds, pure truth and applied truth.

"Truth must first be liberated and then applied. We are now receiving the benefits of the spirit of investigation," he added, pointing to the great discoveries which have given up modern conveniences.

"Much truth has already been brought to life but the question which concerns us is what we can do to liberate truth. We can all apply ourselves to the task of finding out what has already been proven new and true. If our nation is to stand at the head of the world we must not believe things proven false years ago."

Turning to the class he said: "Tonight we leave behind us our high school life. Let us be thankful for the past and full of hope and determination for the future. Our class is a tribute to the people of the community. Let us be thankful we are living in a land where people are the dispensers of truth."

Dr. Baker then began his commencement address. He complimented the community on its school and interest in education.

"It is as it should be," he declared, after remarking he knew he was looking into the faces of hundreds of Connellsville's best people who made up the great audience present to witness the graduation of the class.

"Connellsville people, if you are good citizens, you are proud of your town and of the finest asset in this town, which is more assuredly your children. I am told that nearly 4,000

Continued from Page One

## NEW WORKING AGREEMENT IS EXPLAINED

The new working agreement between the Baltimore & Ohio Railroad Company and its employees was explained to members of Youghiogheny Lodge No. 215 of the Brotherhood of Railroad Trainmen at a meeting Wednesday evening in the Ballows Hall by J. A. Noe of Cumberland, chairman of the Baltimore & Ohio system's general committee. The agreement became effective June 1.

Other brotherhood men in attendance at the meeting include George B. Rowland of Harrisburg, chairman and legislative representative of the state organization, and C. C. Dunlop of Calvary, legislative representative of the Order of Railway Conductors.

## CHIEF FIGURES IN DAY'S NEWS.

James Lacey, of Northampton, Mass., co-biller-philosopher, to whom President Coolidge wrote when he entered the White House, "If it had not been for you I would not be here," laid down his lists long enough to attend the Republican National Convention in Cleveland to see his friend nominated for the Presidency. Fred W. Upham, for 20 years treasurer of the Republican National Committee, has resigned, owing to ill health. M. Paul Painleve has been elected President of the new French Chamber of Deputies. U. S. Senator Thomas J. Walsh, of Montana, is being prominently mentioned as permanent chairman of the Democratic National Convention, which meets in New York.

## 14 Miners Lose Lives in Blast At Hanover Mine

By United Press.  
WILKES-BARRE, June 7.—Fourteen miners are believed to have lost their lives in an explosion of gas in the Loomis mine of the Glen Alden Coal Company at Hanover near here, according to state mine inspectors today.

The body of an unidentified man was recovered at 1:30, making 12 that have been removed and no hope is held for the two others missing.

## Special Street Cars For School Picnic at Shady Grove Tuesday

The Connellsville, South Connellsville and Dunbar school children will be guests of Manager Bert Miller at Shady Grove Park next Tuesday. Tickets, giving them free transportation have already been issued by the park management.

Three special street cars will leave the South Connellsville school building at 9 o'clock Tuesday morning. All going from that place are requested to be on time as they will run straight through to the park. Others will be at the West Penn station and double header service between this place and the park will be continued during the day.

## TWO MORE HOMES WILL GO UP AT POPLAR GROVE

C. W. Erbeck has broken ground for a five-room modern frame house at Poplar Grove. It will be located in George's avenue, near his store.

B. D. Ringler, who recently sold his home at East Connellsville, has bought a lot at Mount Pleasant road and Lincoln avenue, across the road from the Erbeck store, from H. W. Burckelaw and will erect thereon a two-story stucco house of six rooms. He expects to start work at once and to be in the home in the fall.

## Body of Canonsburg College Student Is Dragged From River

By United Press.  
BEAVER FALLS, June 7.—The body of David Thompson of Canonsburg, Geneva College freshman who had been missing since he went canoeing Tuesday afternoon with Lenwick Russell of Delhi, N. Y., also a student, was taken from the Beaver River, near here today.

Searchers continued to drag the river bottom for Russell's body.

## The Weather

Cloudy tonight, followed by showers Sunday; continued cool is the noon weather forecast for Western Pennsylvania.

Temperature Record, 1923  
Maximum ..... 58 92  
Minimum ..... 51 68  
Mean ..... 70 79

## Convention City Ready To Welcome Republican Delegates and Rooters

### Postal Salary Bill Vetoed By Coolidge

By United Press.  
WASHINGTON, June 7.—President Coolidge today vetoed the postal salary increase bill.

"The bill would have increased salaries of 300,000 postal employees an average of \$300 each, involving a yearly expenditure of about \$60,000,000.

Attached to the measure as a rider was the Cable corrupt practices bill which would have provided a complete system for regulation of campaign expenditures. This also was killed by the veto.

Mr. Coolidge will read a message to Congress later today explaining his action.

### 39 Lots Sold Opening Day of Markell Auction

Thirty-nine lots were disposed of at the sale on the Markell plan on the South Side the opening day of the two-day auction yesterday. There was a large crowd of bidders at the evening sale and a fairly large one in the afternoon. Bidding was brisk but the prices did not go high. The top lot was \$110. Others ranged as low as \$100.

There are 100 lots in the tract and it was expected all would be disposed of before the close of today's afternoon and evening sessions.

John V. Markell of the street was the winner of the lot given away the opening day.

### "OPTIMIST" SHOWS MUCH WORK BY EAST HUNTINGDON STAFF

The commencement number of the Optimist, the publication of the East Huntingdon Township High School, is but a sample of the high class work of the student body of that building. The volume is profusely illustrated, containing individual likenesses of the 18 graduates and group pictures of the graduating class and others of the high school.

Mary M. Lesko is editor-in-chief; Ethel Stoner, assistant; Maude Ramsey and Mary Catherine Christie are reporters; Mae Bowser and Mollie J. Longenecker, joke editors; Edward McCall covers athletics; Harold Smith, art; Lillian Koch is historian. The business managers are John Koval and John Love.

The Optimist was printed at The Courier Job Department, operated by Shaffer & Herwick.

### Cleveland Carmen Vote Strike on Eve G. O. P. Convention

By United Press.  
CLEVELAND, June 7.—United States Attorney A. E. Bernstein today called a special meeting of representatives of the Cleveland Railway Company and union motormen and conductors, who have voted to walk out Tuesday night, in a desperate effort to have the strike called off or postponed until after the Republican convention.

### Life Term Faces "Trunk Murderess"

By United Press.  
LOS ANGELES, Cal., June 7.—Found guilty of killing Dr. Benjamin Baldwin and stuffing the body into a trunk, Mrs. Margaret Willis, California "trunk murderess," faces a sentence of life imprisonment.

### Mary Brickman In Charge Normal School Art Work

Miss Mary Brickman of East Connetquot, N. Y., will be in charge of the art classes of the Somerset Branch State Normal school which opens Monday at Somerset.

Miss Brickman is supervisor of art in the Connellsville schools.

### Cleveland Assumes Holiday Attire for the Great Event.

### HOSTS GATHER ALREADY

By JULIAN SYNDER.  
CLEVELAND, Ohio, June 7.—Cleveland today was ready to welcome its first great political convention.

An air of expectancy pervaded the city. The Republican headquarters boomed with activity. Hotels buzzed with convention chatter. Already a vast host of strangers were here for the great event.

Sunday and Monday trains will rumble into town with the Republican army of delegates from all parts of the nation.

Tuesday, John T. Adams, chairman of the Republican National Committee, will read the convention call in Cleveland Public Hall.

And as the sails full, perhaps audible to the 13,000 delegates and visitors jammed in the great auditorium, more than 1,000 trained writers and, for the first time in history the radio will start reporting to the world another chapter in America's political history.

Cleveland today speeded to complete the last-minute preparations for the convention.

"The city put on a holiday garb. The downtown district was decked out in miles of red, white and blue bunting. Flags were flying from most every lamp-post and building.

Merchants had their store windows scoured and placed their newest stocks in pleasing array to catch the eye, for it is well known that with a national convention comes a deluge of gold. It is estimated that more than half a million dollars will be spent here next week.

Scores of vendors counted their renewed stocks of novelties. Straps out-of-the-state faces thronged the streets—right-looking men, nondescript-looking women, crisply dressed women, crumpled and beggars. All were in town for the big show.

Wet or Dry.  
There was a wide variance today between the rumors of bootlegging and predictions of city officials that the convention will be "bone" dry.

Rumor said the city will be the wettest in history and that liquor in almost unlimited quantities will be available.

Safety Director Edwin Barry still held to his forecast that the convention will be "the driest in history."

Flashing touches in the decorations of Cleveland Public Hall, where the convention will be called to order next Tuesday, were being rubbed today.

The great auditorium—simply an elongated bowl with a roof covering it, is draped outside in with the national colors. The auditorium will seat more than 13,000. Sixth street, leading to the Public Hall, is a veritable arch of flags and red, white and blue bunting.

Inside the building the seats, rising one above the other in the stadium-like oval structure, stand out in black relief amid festoons of national color.

The Lighting Scheme.  
The hall is lighted by 1,075 lamps of 200 watts each of white light, located behind a field of glass panels to the ceiling 80 feet above the floor.

More spectacular is the scheme of colored lights. There are amber, red and blue lights behind the glass screens. All are under control of a dimmer, so that a soft amber or brilliant red may diffuse an great chamber. The lights are so arranged that a section of the hall may be blocked off in white light, a second section in red and a third in blue or amber. Or, the colors may be combined to produce various tints and shades.

Lights placed about 12 feet apart under the lower balconies illuminate the arena.

A pipe organ of 10,000 pipes and 150 direct speaking stops will furnish music during the convention.

### Groundhog Hunter Shot Through Foot

Wayne Davidson, a South Connellsville youth, was admitted in the Connellsville State Hospital this morning suffering from a gunshot wound in the right foot.

He had been hunting groundhogs in the Indian Creek Valley when the weapon was accidentally discharged. He was brought here on a freight train. An X-ray of the injury was taken this afternoon.

Henry Snyder Home.  
Henry P. Snyder, a student at Meersburg Academy, was here Thursday on his way to his home in Uniontown for the summer vacation.

## COMMENCEMENT AT MT. PLEASANT INSTITUTE 10TH

Sermon to Graduating Class  
Will Be Delivered Sunday  
Evening.

### W. D. MULLIN MOVES UP

Special to The Courier.  
MOUNT PLEASANT, June 7.—A post-graduate recital was given at the Institute last evening by Mrs. Gladys Fuller Cunningham, pianist; Miss Beulah Forch Lemmon, pianist; Miss Goldie Gertrude Ware, soprano; and Maximilian A. Stor Butzel, baritone. An excellent program was rendered.

Tomorrow evening the baccalaureate sermon will be delivered in the United Brethren Church by the pastor, Rev. John D. Good. On Tuesday, June 9, at 11 A. M. there will be a meeting of the board of trustees. At 8:15 P. M. commencement exercises will be held in the Grand Opera House.

W. D. Mullin Principal.  
At a meeting of the Mount Pleasant Township School Board on Thursday evening, William D. Mullin, a teacher in the township schools for several years, was elected principal of the high school to succeed F. H. Uhl. Mr. Mullin is a son of C. E. Mullin of this place.

Chamber Board Meeting.

Tuesday evening the board of directors of the Chamber of Commerce will hold the last meeting of the season.

Personal News.

Marion Runbaugh, his son, Harold, and son-in-law and daughter, Mr. and Mrs. McClain from Washington, who have been visiting with friends here, will leave Tuesday for their home in Washington.

Dr. and Mrs. Jesse Mullin and children, and Mrs. Emma Tinsman will go to State College to attend the commencement exercises. Edward Mullin, a nephew of Dr. Mullin and Mrs. Tinsman, will graduate.

A play, "When the Old Spoke," with the characters in old-time costume, was presented at the Methodist Episcopal Church on Thursday evening.

The Camp Fire Girls presented Miss Margaret Foust, who has completed her school year, and will leave for her home in New Kensington, with a gold medal.

Children's Day will be observed at the United Brethren Church tomorrow morning. A nice program has been arranged. The exercises will be given at the church hour.

Children's Day, with a carefully arranged program, will be presented tomorrow morning at the Re-Union Presbyterian Church.

Gowns for Brides

Are in Limelight

More Conventional Attire,  
Free of Extravagance,  
Is Favored.

It is a fortunate day in which we live and enjoy such a wealth of art and beauty and comfort in things designed for women's wear. There are, notes a fashion writer in the New York Times, more than ever before, dress creations of every sort, meeting the desire and need for every possible occasion, and this season these are offered in attractive forms at prices which are considerate of the woman of slender income as well as of her that holds the strings of a long purse.

This becomes more gratifyingly apparent as the days pass, and obviously the response to this opportunity is spontaneous, so that one who is moved by common sense will not delay, but will avail herself of the first offerings and the best selections in models. They are, this season, a notable achievement for the artists in Paris who direct our ways in dress; the designs are original and artistic, the materials are beautiful and the colors fascinating.

First in the thought of everyone are the spring wedding and the brides' trousseau that provide a thrill to women of every age and station. Wedding gowns have never been lovelier or more picturesque than they are now. There is a feeling for the more conventional wedding dress, free of the extravagance and eccentricities that are expressed in gowns for other occasions.

A few years ago there was evident in some of the most important designers a tendency toward the ultra modern, the extreme, the theatrical in the costume of a bride. But the best designers now keep close to custom, with deference toward the dignity and beauty possible to express with wedding satin, orange blossoms and tulle, and they created this season costumes of great value for the bride and her bridesmaids.

A few couturiers have gone in for frills in the style of wedding gowns, using the quaint models of earlier days, when skirts were wide and bodices tight, and when lace and lace was much in evidence.

This type of dress is definitely suited to some brides, and when it is well done and worn it is a charming and satisfying variant of the formally conventional wedding gown.

One delightful feature that prevails is an entire absence of busy detail and of complexity in composition. The straight-line, simple gown is most popular and given the most delicious opportunity for arrangement of the veil.

Next to this, the princess gown, in satin, with a slight suggestion of deep, is most liked, and is distinguished by some very successful modeling, notably from the house of Worth.

A bridesmaid is necessarily a joy to select. There must be grace and poise, elegance and exquisite fingerings, and all the foregoing requisites.

## Convention City Ready To Welcome Republican Delegates and Rooters

Continued on Page Five.  
"keynote" and nominating speech or speeches will be made in exceedingly spacious, measuring 101 by 50 feet, opening is 72 feet wide and is surmounted by an arch 42 feet six inches high. The opening is fitted with a steel and asbestos curtain weighing 40 tons, with its counter weights. It is operated by hydraulic power.

There are more than 30 private rooms directly off the stage especially fitted up for the convenience of the opening is 72 feet wide and is surmounted by an arch 42 feet six inches high. The opening is fitted with a steel and asbestos curtain weighing 40 tons, with its counter weights. It is operated by hydraulic power.

There will be 70 doorkeepers on duty under direction of General Wilder Metcalf of Kansas. The doorkeepers have been appointed from all parts of the country. One hundred and fifty ushers will seat the delegates and visitors.

Lafayette B. Gleason of New York is secretary, and Colonel Edward P. Thayer is sergeant-at-arms of the convention.

Of the decorations downtown, historic Public Square is perhaps most lavishly festooned. Thirty-two great pillars are wrapped in the national colors and connected by wires strung with hundreds of electric lights.

The most spectacular lighting effect of the convention will be Wednesday evening, when the likeness of President Coolidge and Secretary of State Charles Hughes will be flashed across the sky over the city by fireworks.

Lafayette B. Gleason.

More people will see, hear and read about the convention than any convention in history. Hundreds of telegraph wires will have been strung into Public Hall for the use of newspapers and press associations. Fifty telephone booths have been installed.

S. C. Moulton, division superintendent of the local telephone company, said the wire system is the most elaborate in the history of political conventions.

For the first time the convention will be broadcast by radio. Convention proceedings will be broadcast by three Cleveland stations directly, and by a dozen other stations in other parts of the country through continuous long distance service telephone from the convention hall to the radio instruments. It is estimated that 20,000,000 persons will "listen in" on the convention.

Then also for the first time the new system of sending photographs by telegraph wire by means of recently

perfected instruments will be used commercially by the American Telegraph and Telephone Company. Thus it will be possible for a newspaper hundreds of miles distant to procure and publish a picture of the convention the same day the picture is snapped in Cleveland. The system was tried out several weeks ago.

Hundreds of loud-speaker reproducers will carry all the speeches before the convention to roped-off spaces outside the building, where accommodations for 50,000 persons have been arranged. Through the reproducers, the speeches may be heard outside the building practically as well as inside.

The State Delegations.

The number of delegates and alternates from each state follow:

### MEN AND WOMEN IN NEWS OF THE DAY.

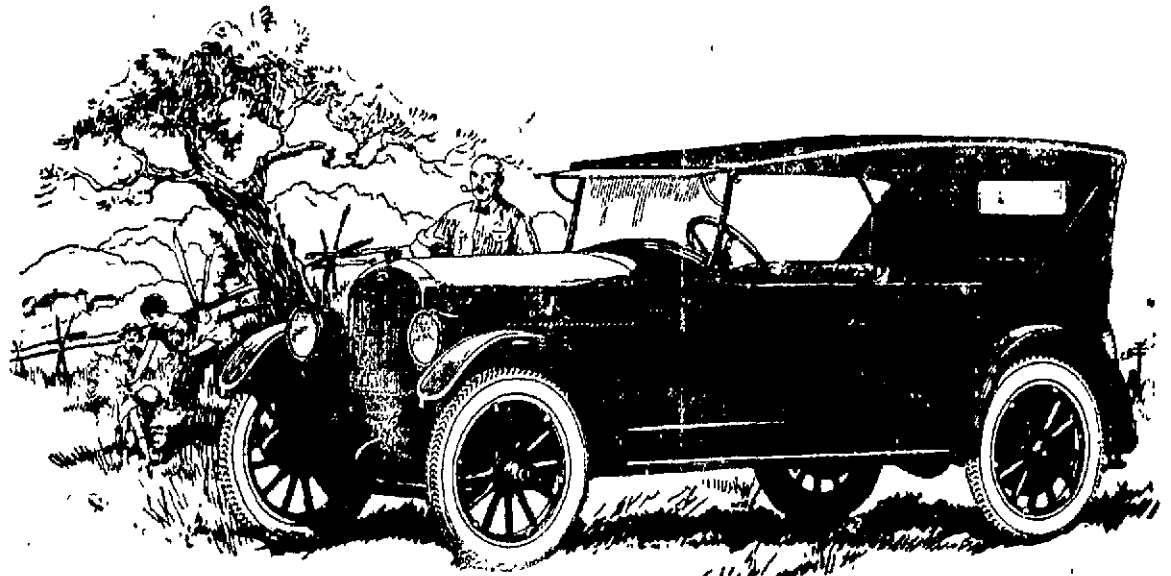

P. O'CONNOR & EVELYN NESBIT  
PRESIDENT MILLER AND MISS FRANKS

Fritz Hopkins Joyce, internationally famed beauty, actress, and ex-wife of four millionaires or near-millionaires, has married Count Gosta Morner, a member of the Swedish nobility, now manufacturing tooth paste in Chicago. The wedding in the comparatively poor fifth husband took place in Atlantic City, N. J. T. P. O'Connor, famous "Tay Pay," father of the House of Commons, and Irish Nationalist leader, was the first man offered a marriage on Ramsay MacDonald's first marriage list. He refused it, but accepted appointment to the Privy Council. President Millerand, of France, is likely to be forced out of office by the radical Chamber of Deputies and Senate. Evelyn Nesbit, divorced wife of Harry K. Thaw, slayer of Stanford White, lost her counter-suit in the New York courts for a divorce from Jack Clifford, her former dancing partner, who named Evelyn Nesbit, motion picture actor, as co-respondent.

### "CAP" STUBBS

IN ALL THE WORLD NO CAR LIKE THIS

## Jewett families know the joy of a motor car that's not a toy

WHEN a family buys a Jewett they marvel at the vast difference between the ordinary light, flimsy, under-powered car—a "toy"—and Jewett's husky weight and power.

Any trip they want to make, they make in comfort and on time! No "babbling" of the Jewett—no question about mastering strange roads or hard hills. Jewett remember, has full fifty horsepower. It weighs 2850 lbs.

—200 to 400 lbs. more than "light" sixes. Has 6-inch-deep frame—all-steel universal joints—Paige-Timken axles front and rear. A ruggedness inviting confidence.

At anywhere near \$1065 Jewett Six has no equal. Never before such power, strength, sheer ability, roominess, convenience. We can prove to you the truth "In all the world no car like this."

### FIRST PICTURES OF FRANKS' SLAYERS IN COURT.

Above is shown the arraignment of Richard Loeb and Nathan Leopold, Jr., 19-year-old sons of Chicago millionaires, confessed kidnapers and murderers of Robert Franks, 13-year-old son of another millionaire. Loeb is shown in the gray suit at the left, with Leopold at his side and slightly in front.

### "THE SHOOTING OF DAN MCGREW"

Cast includes Barbara La Marr, Lew Cody, Mae Busch, George Siegmund and Percy Marmont.

Monday, Tuesday and Wednesday

### BEBE DANIELS

—In—

### "HIS CHILDREN'S CHILDREN"

## At the Theatres

### The Paramount

"CROSSED TRAILS," with Franklyn Farnum in the leading role, is the feature picture today at the Paramount.

Mr. Farnum is rapidly gaining a reputation as the screen's foremost Western star, for in addition to his remarkable athletic prowess, his stunt ability and his fine horsemanship, he is possessed of a truly magnetic personality and can act with the best of them.

In "Crossed Trails" he is said to have a picture which is admirably suited to his many talents. It is a tale of the old glamorous stage coach days in the West—the days of the Wells Fargo Express and the Vigilantes—and is brimful of action thrills and romance.

Monday and Tuesday, "My Man" will be shown.

### The Soisson

"THE LIGHTNING RIDER" with Harry Carey, popular screen star, in one of the best roles of his screen career, provides splendid entertainment today at this theatre. Action, thrills, suspense, mystery, romance and intrigue, these are the threads that make the colorful fabric of the picture. There is not a dull moment throughout the entire production and those who have witnessed the attraction claim it is one of the best shown at this theatre in months. Will Rogers is also seen in "The Cake Eater."

Monday, Tuesday and Wednesday, Broadway After Dark will be shown.

## Paramount Theatre

## The Orpheum

"THE SHOOTING OF DAN MCGREW," with Barbara La Marr and Lew Cody in the leading roles is on view today at the Orpheum.

This new picture tells the whole story of the dramatic hate between two men, an actual happening in the days of the Yukon gold rush. The events leading up to the gunfight are revealed for the first time.

Barbara La Marr, Lew Cody and Percy Marmont play the great roles of the lady known as Lou, Dangerous Dan McGraw and Jim, the husband. The exceptional cast also includes Mae Busch, George Siegmund and many others.

Monday, Tuesday and Wednesday  
Bebe Daniels will be seen in "His Children's Children"

## Dickerson Run

DICKERSON RUN June 7—Mr and Mrs J. J. Beary of Dunbar were calling on Vanderbilt friends last evening.

Mr and Mrs Frank Barricklow of Herbert were the guests of Vanderbilt friends last evening.

Mrs J. C. Lovickwood was shopping in Pittsburgh Monday.

Mrs W. A. Gillispie has returned home after a very pleasant visit with relatives and friends at New Canaan. Miss Lillian Strickler was the guest of Pittsburgh friends Monday.

Mrs Walter Adkins of Fairmont, W. Va. is spending this week visiting relatives and friends at Vanderbilt.

Donald Padon was a recent Pittsburgh business caller.

Mrs Edith Hornbeck has returned to her home at Dormont after attending the funeral of her brother Thomas Ambrose.

## Confluence

CONFLUENCE, June 7—The chalet opened here today with a splendid program. It was greeted by a large attendance.

William Wills of Urelen was in town on business yesterday.

John Reed was a business visitor to Tub Hill yesterday.

Mrs P. H. Bender has returned from the commencement exercises at California State Normal School. She was accompanied home by her daughter, Edie, a graduate.

H. J. Blank of Friendsville, Md. was in town yesterday greeting his many friends.

Mr. E. Frank has returned from a visit with friends in Pittsburgh.

Mrs Sarah Sproul of Ohio was a recent visitor in town.

Miss Daniel Smith was a visitor to Rockwood yesterday.

Mrs J. B. Layle of Uniontown was here yesterday looking after a property interest.

Mr and Mrs Fred Nagle of Lancaster, who were visiting the former's uncle and aunt Mr and Mrs G. R. McDonald, have returned home. They were accompanied home by Mr and Mrs McDonald, who will visit there for several days.

"Good Bye and Good Luck"

These are the parting words thousands of graduates will exchange as they separate on Commencement Day—this month "Good Luck"—briefly and sensibly translated—means, "Good-bye, and will surely come to those who work and save."

No more appropriate gift to a graduate can be made than one of our peace-books containing a small initial deposit. The Citizens National Bank of Connelville, Pa. Save, while in Your Youth—Advertisement.

## What Do You Know About Your Car?

The average car owner does not know a whole lot about his car. He knows how fast it will go and whether or not it can take the hills on high. If anything goes wrong with it he drives his car in the garage and leaves expert mechanics repair it.

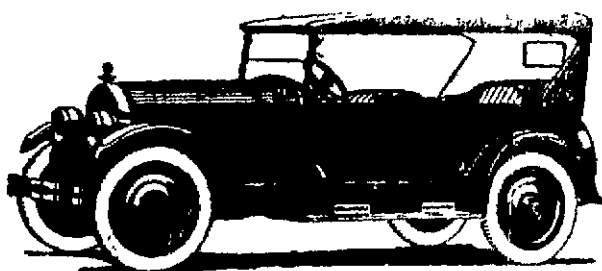

**\$1,495**  
Delivered

The man who drives a FLINT SIX, if he has driven a car before, will notice a tremendous difference in his repair bills. Why? Not because no repairs are made—because something goes wrong with the best of cars at times; But because the engine of the Flint is the most accessible engine in any automobile.

The Flint Six engine has been pronounced by engineers and service experts as ideal from the standpoint of ease in adjustment. Every unit is easy to get at, work around, or demount if required.

The graceful lines of the body appeal to those who are not interested in the technical end. Nickel-plated radiator, drum type head and cowl lamps of unusual size decorate the long, broad hood and cowl.

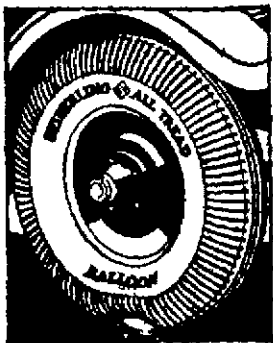

Our demonstrator has been driven practically 20,000 miles. Let us take you out in it and show you what it can do.

## BALLOON TIRES

For  
Your  
**FORD**

## AT ROCK-BOTTOM COST

Including Wheels, Rims, etc.

Make your little boat ride like a Lincoln—jump its looks 100%.

With balloon tires you roll over car tracks and rough roads instead of bouncing over them.

We can furnish you with a set of four Seiberling All-Tread Balloon tires, four wheels, five rims, wrench, gauge, all complete for a surprisingly small sum.

Balloon tires not only will furnish you riding comfort but they will add years to the life of your car, besides lowering repair bills.

We'll be glad to give you full information.

## Accidents From Motorist's Inconsistencies

Abnormalities in Motor Vehicle Regulation Looming as Real Root of Traffic and Safety Problems—Real Understanding of Issue Doubtful—Motorist Urged to Attend Safety Conference to Foretell Radical and Unnecessary Legislation.

By WILLIAM ULLMAN

Recent investigations into such important problems as accident prevention, traffic control and highway safety are bringing to light some strange inconsistencies which have somehow escaped the spotlight for years.

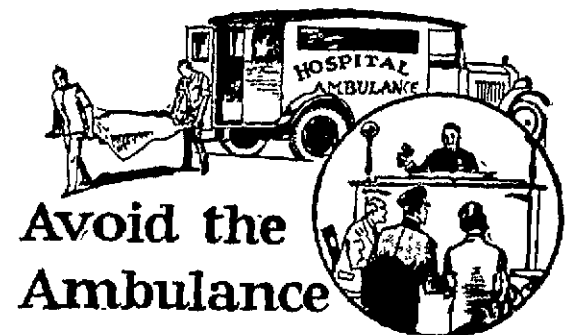

One investigator recently startled his audience by asking those assembled if they thought it was sensible to allow traffic women in their station to operate ten-ton motor trucks. A ripple of laughter went over the group only to be followed instantly by a significant silence. Suddenly they caught his meaning.

The motor vehicle license issued to operators in the State where the investigator was talking reads: This certifies that the person named below has complied with the provisions of law concerning the licensing of motor vehicle operators and is hereby licensed to operate a motor vehicle on the highways of this State.

Since the license named no specific make of car, or type, the term "motor vehicle" is construed to mean "any motor vehicle." It is typical of the licensing of motor vehicle operators in general and is by no means confined to the particular locality.

Just picture for a moment what this means. Here is the law granting Mary Doe the right to drive a ten-ton truck should she feel inclined to do so. Here is John Doe privileged to drive any automobile regardless of whether it is safe or unsafe.

The inconsistencies, say the reports are too numerous to permit of detailed discussion of any one at this stage of the investigation. Everyone just now is interested primarily in (Continued on Next Page)

## Avoid the Ambulance and Police Court

Courts of law recognize no excuse for faulty brakes. . . Better have the brakes attended to before, not after the accident. Maybe your brakes need adjusting or new brake lining. Let us look them over. There is no charge for inspection.

We are brake experts. We specialize in this branch of service. Our organization is splendidly equipped to render prompt service—we'll line your brakes with Raybestos while you wait.

**Avoid Accidents—Be Safe**

Brakes Lined While You Wait.

Connellsville, Pa.

## Utmost Mileage

The motorist once asked, "How much mileage can I get from this tire before it wears down to the fabric and has to be discarded?" Now he thinks, "How much mileage can I get from this tire before I have to have it retreaded?"

Retreaded tires are practical. They save the motorist money, for it is an inexpensive operation, and it adds thousands of miles of service to a tire that would ordinarily have been discarded. Let us retread one for you. Hundreds of tires in the Coke Region have been retreaded by us and are giving excellent service. Some of them have given as much as 10,000 more miles.

## Accidents From Motor- dom's Inconsistencies

(Continued from Preceding Page)

seems to be something inconsistent about the whole business. Take it from another angle. The usually insurers recently revised their rules and regulations so as to eliminate the necessity of restricting public liability and property damage coverage to a specific driver, with endorsement if others were permitted to drive the car. Obviously this prevented a lot of motorists from allowing any Tom, Dick or Harry to run their machines and it is only a matter of time that insurance rates were reduced to see that this extraordinary coverage helped to cut down the number of accidents. It is argued by many that the insurers should have kept the lid down now that they had started something worth while.

There is something rather startling in the fact that the law allows any one who claims he can drive one particular car to take the wheel of any car and that the insurers will not demand for any losses which such a driver may claim when he has borrowed, with permission some car up on which insurance has been written.

The startling increase in automobile accidents and fatalities throughout the country is not so alarming when one recalls that persons who have never demonstrated their ability to drive cars can operate their machines or machines owned by others in States where drivers have been examined and where people at the wheel expect a certain degree of ability to be displayed by those at the wheel of other cars.

The man who hails from a state where examinations are not the rule, or from a section of the continent where the holding of an operator's license is not required by law is privileged to drive for a limited period in a state where licenses and examinations are required of local drivers. If he has permission of the owner.

What for example, does it mean when a highway department posts the warning "Road under repair. Travel at your own risk?" Some say that this is a clear statement of the fact that the State is more interested in repairing a road than in saving a life. Otherwise traffic would be rerouted over safe detours.

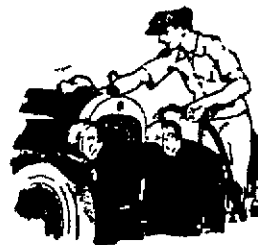

This is putting it straight from the shoulder. The fairer view of the matter is that the whole of motorism has been so bedeviled with inconsistencies that even the highway departments butting to the menace of highway hazards.

The greatest inconsistency of all many contend is the present apathy toward the subject. The facts are no secret yet far too many officials are proceeding on the assumption that we must look to some hidden cause of present problems.

The general motoring public could do motoring a great service by attending the many traffic and safety seminars being held around the country and by helping to focus attention upon these inconsistencies—the real root of the trouble.

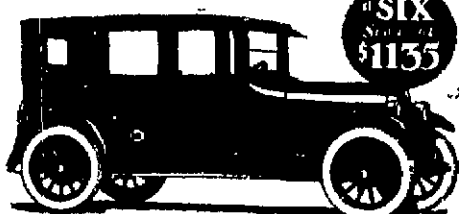

### "Well Done"

say all our patrons when they have their cars washed by us. The reason is because we are here at all times, year in and year out. Nothing but skilled labor is allowed to touch your car no matter whether it is being washed, greased, sponged or having the upholstery cleaned. You'll say well done also if you leave us show you what we can do.

## Announcing the Chrysler Six

THE CHRYSLER SIX carries the undeniable mark of quality—that elusive, indefinite, but unmistakable impress which characterizes any object of inbuilt worth.

And this impression gained merely from a fleeting glance of the car is no illusion. The Chrysler was built to specifications of material and workmanship not surpassed by any known practice of motor car manufacture. It was created first in the mind of Walter P. Chrysler. It was to be an ideal motor car—the ideal motor car of a man whose name is deeply etched behind the name plate of hundreds of thousands of motor cars.

Chrysler performance in its every phase tells that a distinctly new kind of motor car has been built. Only proven principals of engineering have entered into the building of the Chrysler Six, yet intensive research and development have made possible high performance results that are truly remarkable.

Pick-up is a revelation to the owner of any car. The complete absence of vibration is finally a fact. Hills are taken as though there were no hills. Gasoline mileage is in excess of twenty to the gallon.

The Chrysler Six is now on display in our show room—come in and see it. We'll cheerfully demonstrate.

## The New P E E R L E S S

Power when you need it; speed when you want it; cozy comfort at all times. All these things and more are embodied in the New Peerless—whether it be a Six or an Eight.

The makers of the Peerless realized the fact that everyone who admired the Peerless Eight could not afford to own one—so they built the Six to fulfill this need.

The new Six is a Peerless in every respect. It is no experiment—it was built only after years of experimental work. Altho it has been on the market but a short time it is as much a finished produce as its companion—the Eight.

It has hydraulic four wheel brakes, balloon tires and an engine that develops 70 horse power. See it today in our display room.
